

REMARKS

Applicant has amended the claim to more accurately define Applicant's invention.

Claims 12 and 13 have been combined to remove the Examiner's objection to claim 13.

Accordingly, claims 5 - 7, 9, 12, and 14 - 18 are clearly allowable. New claims 19-22 should be allowable for the same reason as claim 12. Each of these claims provides that a material in the device has an initial temperature higher than the solid carbon dioxide. This is not taught or suggested by Eagar.

The remaining claims have been cancelled.

Respectfully submitted,

Thomas A. O'Rourke
